Professional Summary

Full-Stack Web Developer with hands-on experience building responsive MERN-stack applications using React, Node.js, Express, MongoDB, and TypeScript. Recently completed an intensive Full-Stack Web Development Bootcamp at Ironhack, where I developed production-style applications including productivity platforms, recipe systems, and e-commerce solutions using modern development practices and tools. Brings strong transferable experience from fast-paced customer-facing environments, managing 50+ daily interactions while developing communication, teamwork, adaptability, and problem-solving skills applicable to collaborative software development environments. Passionate about building scalable, user-focused applications and continuously expanding technical expertise in modern web technologies.

Technical Skills

Front-End

React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Vite, Responsive Web Design

Tools & Platforms

Git, GitHub, Postman, Netlify, Vercel

Languages

Portuguese (Native), English (Advanced)

Back-End

Node.js, Express.js, REST APIs, JWT Authentication

Development Concepts

CRUD Applications, API Integration, Component-Based Architecture

Databases & ORM

MongoDB, SQL, Prisma

Soft Skills

- **Communication** — Managed 50+ daily customer interactions in a fast-paced retail environment.
- **Team Collaboration** — Worked with a team of 10+ colleagues to achieve daily sales and operational goals.
- **Problem Solving** — Resolved customer issues efficiently and developed user-focused web application features.
- **Adaptability** — Successfully transitioned from retail into full-stack web development through intensive training and hands-on projects.

Projects

Taskora – Smart Productivity Engine 🔗

GitHub: <https://github.com/ericavenderica/TASKORA>

React | Node.js | Express | MongoDB | JWT Authentication

- Built a full-stack productivity platform designed to help users organize and prioritize tasks through secure authentication and dynamic project management tools.
- Implemented CRUD functionality, reusable React components, JWT authentication, and filtering systems to improve scalability and user experience.
- Optimized API calls and database queries to improve responsiveness and usability across desktop and mobile devices.

I'm Hungry – Recipe Platform

GitHub: <https://github.com/pablovqueiroz/recipe-book-app>

React | JavaScript | HTML | CSS | Vite

- Created a full CRUD recipe platform allowing users to manage recipes, favorites, and personalized profiles in an intuitive interface.
- Designed responsive layouts and reusable React components to improve accessibility and cross-device usability.
- Enhanced front-end and back-end integration through optimized API handling and state management.

Velvet Rue – Beauty E-Commerce Platform

GitHub: <https://github.com/ericavenderica/VELVET-RUE>

React | Node.js | JavaScript | Vite

- Developed a full-stack beauty e-commerce platform featuring authentication systems for customers and administrators.
- Built advanced product filtering, sorting, wishlist, and persistent cart functionality to improve shopping experience and user engagement.
- Created an admin dashboard supporting inventory management, analytics, and order processing workflows.

Portfolio Website

GitHub: <https://github.com/ericavenderica/Personal-Portfolio>

HTML | CSS | JavaScript

- Designed and developed a responsive portfolio website to showcase technical projects and development skills professionally.
- Implemented interactive UI elements, smooth navigation, and custom styling focused on accessibility and modern design principles.
- Optimized layout performance and responsiveness across desktop and mobile devices.

Education

2025 – 2026

Full-Stack Web Development Bootcamp

Ironhack

Completed an intensive Full-Stack Web Development Bootcamp focused on modern JavaScript technologies, responsive application development, RESTful APIs, authentication systems, database management, and agile development practices.

Professional Experience

05/2026 – Present
Lisbon, Portugal

VPA Solutions

Web Development Intern

- Contributing to the development and maintenance of web applications in a collaborative remote team environment.
- Supporting both front-end and back-end feature implementation using modern web development practices.
- Collaborating with developers on application improvements, debugging, and workflow optimization.
- Gaining hands-on experience with real-world software development processes, team communication, and agile collaboration.

08/2022 – 03/2025
Manchester, United Kingdom

H&M

Sales Assistant

- Delivered customer support in a fast-paced retail environment, managing 50+ daily customer interactions while maintaining strong communication and client satisfaction standards.
- Collaborated with a team of 10+ colleagues to consistently achieve operational and sales goals in a high-pressure environment.
- Maintained inventory accuracy and processed high-volume transactions with strong attention to detail and organizational efficiency.
- Developed transferable skills including adaptability, teamwork, time management, and problem-solving applicable to collaborative software development environments.
